

FYUGP

GEOGRAPHY HONOURS/ RESEARCH

FOR UNDER GRADUATE COURSES UNDER RANCHI UNIVERSITY

Upgraded & Implemented from 3rd Semester of Academic Session 2022-26
& From 1st Semester of Session 2023-27 Onwards

स्नातकोत्तर भूगोल विभाग
राँची विश्वविद्यालय, राँची

University Department of Geography
Ranchi University, Ranchi

Ref

Date 30/05/2023

Members of Board of Studies of Four-Year Under-Graduate Programme
(FYUGP) Syllabus as per Guidelines of the Ranchi University, Ranchi

1. Chairman –

Dr. Jagdish Kumar Mahto
Associate Professor & Head
University Department of Geography, Ranchi University, Ranchi

J Mahto
30/05/2023

2. Internal Members-

i) **Dr. Jitendra Shukla**
Assistant Professor (S. S.)
University Department of Geography, Ranchi University, Ranchi

J Shukla
30/05/2023

ii) **Dr. Ajay Kumar Sharma**
Assistant Professor
University Department of Geography, Ranchi University, Ranchi

Ajay
30/05/2023

iii) **Dr. G K Singh**
Assistant Professor
University Department of Geography, Ranchi University, Ranchi

G K Singh
30.5.23

iv) **Dr. Sunil Kumar**
Assistant Professor
University Department of Geography, Ranchi University, Ranchi

S Kumar
30/5/23

v) **Dr. U. C. N. Tiwari**
Assistant Professor
University Department of Geography, Ranchi University, Ranchi

U C N Tiwari
30.5.2023

vi) **Dr. Rajesh Kumar Lal**
Assistant Professor
University Department of Geography, Ranchi University, Ranchi

Rajesh K Lal
30/05/2023

vii) **Dr. Rajeev Ranjan Shrivastava**
Assistant Professor (S. S.)
PG Dept. of Geography, St. Xavier's College, Ranchi

Rajeev R. Shrivastava

HIGHLIGHTS OF REGULATIONS OF FYUGP

PROGRAMME DURATION

- The Full-time, Regular UG programme for a regular student shall be for a period of four years with multiple entry and multiple exit options.
- The session shall commence from **1st of July**.

ELIGIBILITY

- The selection for admission will be primarily based on availability of seats in the Major subject and marks imposed by the institution. Merit point for selection will be based on marks obtained in Major subject at Class 12 (or equivalent level) or the aggregate marks of Class 12 (or equivalent level) if Marks of the Major subject is not available. Reservation norms of The Government of Jharkhand must be followed as amended in times.
- UG Degree Programmes with Double Major shall be provided only to those students who secure a minimum of overall 75% marks (7.5 CGPA) or higher.
- Other eligibility criteria including those for multiple entry will be in light of the UGC Guidelines for Multiple Entry and Exit in Academic Programmes offered in Higher Education Institutions.

ADMISSION PROCEDURE

- The reservation policy of the Government of Jharkhand shall apply in admission and the benefit of the same shall be given to the candidates belonging to the State of Jharkhand only. The candidates of other states in the reserved category shall be treated as General category candidates. Other relaxations or reservations shall be applicable as per the prevailing guidelines of the University for FYUGP.

VALIDITY OF REGISTRATION

- Validity of a registration for FYUGP will be for maximum for Seven years from the date of registration.

ACADEMIC CALENDAR

- An Academic Calendar will be prepared by the university to maintain uniformity in the CBCS of the UG Honours Programmes, UG Programmes, semesters and courses in the college run under the university (Constituent/Affiliated).
- **Academic Year:** Two consecutive (one odd + one even) semesters constitute one academic year.
- **Semester:** The Odd Semester is scheduled from **July to December** and the Even Semester is from **January to June**. Each week has a minimum of 40 working hours spread over 6 days.
- Each semester will include – Admission, course work, conduct of examination and declaration of results including semester break.
- In order to undergo 8 weeks' summer internship/ apprenticeship during the summer camp, the Academic Calendar may be scheduled for academic activities as below:
 - a) Odd Semester: **From first Monday of August to third Saturday of December**
 - b) Even Semester: **From first Monday of January to third Saturday of May**
- An academic year comprising 180 working days in the least is divided into two semesters, each semester having at least 90 working days. With six working days in a week, this would mean that each semester will have $90/6 = 15$ teaching/ working weeks. Each working week will have 40 hours of instructional time.
- Each year the University shall draw out a calendar of academic and associated activities, which shall be

strictly adhered to. The same is non-negotiable. Further, the Department will make all reasonable endeavors to deliver the programmes of study and other educational services as mentioned in its Information Brochure and website. However, circumstances may change prompting the Department to reserve the right to change the content and delivery of courses, discontinue or combine courses and introduce or withdraw areas of specialization.

PROGRAMME OVERVIEW/ SCHEME OF THE PROGRAMME

- Undergraduate degree programmes of either 3 or 4-year duration, with multiple entries and exit points and re-entry options within this period, with appropriate certifications such as:
 - UG Certificate after completing 1 year (2 semesters) of study in the chosen fields of study provided they complete one vocational course of 4 credits during the summer vacation of the first year or internship/ Apprenticeship in addition to 6 credits from skill-based courses earned during first and second semester.,
 - UG Diploma after 2 years (4 semesters) of study diploma provided they complete one vocational course of 4 credits or internship/ Apprenticeship/ skill based vocational courses offered during first year or second year summer term in addition to 9 credits from skill-based courses earned during first, second, and third semester,
 - Bachelor's Degree after a 3-year (6 semesters) programme of study,
 - Bachelor's Degree (Honours) after a 4-year (8 semesters) programme of study.
 - Bachelor Degree (Honours with Research) after a 4-year (8 semesters) programme of study to the students undertaking 12 credit Research component in fourth year of FYUGP.

CREDIT OF COURSES

The term 'credit' refers to the weightage given to a course, usually in terms of the number of instructional hours per week assigned to it. The workload relating to a course is measured in terms of credit hours. It determines the number of hours of instruction required per week over the duration of a semester (minimum 15 weeks).

- a) One hour of teaching/ lecture or two hours of laboratory /practical work will be assigned per class/interaction.

One credit for Theory = 15 Hours of Teaching i.e., 15 Credit Hours

One credit for Practicum = 30 Hours of Practical work i.e., 30 Credit Hours

- b) For credit determination, instruction is divided into three major components:

Hours (L) – Classroom Hours of one-hour duration.

Tutorials (T) – Special, elaborate instructions on specific topics of one-hour duration

Practical (P) – Laboratory or field exercises in which the student has to do experiments or other practical work of two-hour duration.

CALCULATION OF MARKS FOR THE PURPOSE OF RESULT

- Student's final marks and the result will be based on the marks obtained in Semester Internal Examination and End Semester Examination organized taken together.
- Passing in a subject will depend on the collective marks obtained in Semester internal and End Semester University Examination both. However, students must pass in Theory and Practical Examinations separately.

PROMOTION CRITERIA**First degree programme with single major:**

- i. The Requisite Marks obtained by a student in a particular subject will be the criteria for promotion to the next Semester.
- ii. No student will be detained in odd Semesters (I, III, V & VII).
- iii. To get promotion from Semester-II to Semester-III a student will be required to pass in at least 75% of Courses in an academic year, a student has to pass in minimum 9 papers out of the total 12 papers.
- iv. To get promotion from Semester-IV to Semester-V (taken together of Semester I, II, III & IV) a student has to pass in minimum 18 papers out of the total 24 papers.
- v. To get promotion from Semester-VI to Semester-VII (taken all together of Semester I, II, III, IV, V & VI) a student has to pass in minimum 26 papers out of the total 34 papers.
- vi. However, it will be necessary to procure pass marks in each of the paper before completion of the course.

First degree programme with dual major:

- vii. Above criteria are applicable as well on the students pursuing dual degree programmes however first degree programme will remain independent of the performance of the student in dual major courses.
- viii. To get eligible for taking ESE, a student will be required to pass in at least 75% of Courses in an academic year. a student has to pass in minimum 3 papers out of the total 4 papers.
- ix. It will be a necessity to clear all papers of second major programme in second attempt in succeeding session, failing which the provision of dual major will be withdrawn and the student will be entitled for single first degree programme.

PUBLICATION OF RESULT

- The result of the examination shall be notified by the Controller of Examinations of the University in different newspapers and also on University website.
- If a student is found indulged in any kind of malpractice/ unfair means during examination, the examination taken by the student for the semester will be cancelled. The candidate has to reappear in all the papers of the session with the students of next coming session and his one year will be detained. However, marks secured by the candidate in all previous semesters will remain unaffected.
- There shall be no Supplementary or Re-examination for any subject. Students who have failed in any subject in an even semester may appear in the subsequent even semester examination for clearing the backlog. Similarly, the students who have failed in any subject in an odd semester may appear in the subsequent odd semester examination for clearing the backlog.

Regulation related with any concern not mentioned above shall be guided by the Regulations of the University for FYUGP.

			Total Credit

NUMBER OF CREDITS BY TYPE OF COURSE

The hallmark of the new curriculum framework is the flexibility for the students to learn courses of their choice across various branches of undergraduate programmes. This requires that all departments prescribe a certain specified number of credits for each course and common instruction hours (slot time).

Table 3: Overall Course Credit Points for Single Major

Courses	Nature of Courses	3 yr UG Credits	4 yr UG Credits
Major	Core courses	60	80
Minor	i. Discipline/ Interdisciplinary courses and ii. Vocational Courses	24	32
Multidisciplinary	3 Courses	9	9
AEC	Language courses	8	8
SEC	Courses to be developed by the University	9	9
Value Added Courses	Understanding India, Environmental Studies, Digital Education, Health & wellness, Summer Internship/ Apprenticeship/ Community outreach activities, etc.	6	6
Internship (In any summer vacation for Exit points or in Semester-V)		4	4
Research/ Dissertation/ Advanced Major Courses	Research Institutions/ 3 Courses		12
Total Credits =		120	160

Table 4: Overall Course Code and Additional Credit Points for Double Major

Courses	Nature of Courses	3 yr UG Credits	4 yr UG Credits
Major 1	Core courses	60	80
Major 2	Core courses	48	64
Minor	i. Discipline/ Interdisciplinary courses and ii. Vocational Courses	24	32
Multidisciplinary	3 Courses	9	9
AEC	Language courses	8	8
SEC	Courses to be developed by the University	9	9
Value Added Courses	Understanding India, Environmental Studies, Digital Education, Health & wellness, Summer Internship/ Apprenticeship/ Community outreach activities, etc.	6	6
Internship (In any summer vacation for Exit points or in Semester-V)		4	4
Research/ Dissertation/ Advanced Major Courses	Research Institutions/ 3 Courses		12
Total Credits =		168	224

AIMS OF BACHELOR'S DEGREE PROGRAMME IN GEOGRAPHY

The aim of bachelor's degree programme in Geography is intended to provide:

1. **Basic Concept:** The fundamental concepts and philosophical foundation of each course need to be discussed.
2. **Understanding Landscape:** An understanding of landscape at different levels needs to be discussed and understood for a thorough knowledge of spatial dimensions.
3. **Understanding Ecosystem Structure and Potential:** To comprehend the dynamic dimensions of human and ecosystem relationships.
4. **Human Perception and Behaviour:** Learning human perception and behaviour to acquire the geographical knowledge evolved over time, is essential to improve decision making process.
5. **Identification of Critical Problems and Issues:** Detection and identification of the critical problems and spatial issues are essential for sustainable development.
6. **Field Based Knowledge:** Field based knowledge is essential to understand the ground reality, spatial patterns and processes.
7. **Spatial Tools and Techniques:** The basics and applications of spatial tools and techniques are essential to make the studies more scientific and applicable.
8. **Statistical Techniques:** Use of statistical tools and techniques is essential for precise and objective geographic analysis and interpretation of complex phenomena.
9. **Applied Dimensions:** Identification of the critical problems and spatial issues form the core of the modern geography for various applications and decision making, including
10. **Planning:** Resources, Environment & Disaster Management, Land Use Planning, and Urban and Regional Development together with Climate Change Mitigation and Adaptation, etc.
11. **Case Study based Analysis:** There is a need to understand the specificities of the problems in specific areas for them in depth comprehension and solution. The case studies are essential, especially to find out the solutions to the lagging regions for their solutions based on first-hand information.

PROGRAM LEARNING OUTCOMES

The programme learning outcomes relating to Honours/Research Degree in Geography:

1. Demonstrating the understanding of basic concepts in geography.
2. Demonstrating the coherent and systematic knowledge in the discipline of geography to deal with current issues and their solution.
3. Display an ability to read and understand maps and topographic sheets to look at the various aspects on the space.
4. Cultivate ability to evaluate critically the wider chain of network of spatial aspects from global to local level on various time scales as well.
5. Recognize the skill development in Geographical studies programme as part of career avenues in various fields like teaching, research and administration.
6. It is also suggested that after the completion of FYUGP Hons./Research, students should be able to demonstrate the knowledge obtained in such way so that they can explore the employability options and service to the society.

SEMESTER WISE COURSES IN GEOGRAPHY MAJOR-1 FOR FYUGP

2022 onwards**Table 7: Semester wise Examination Structure in Discipline Courses:**

Semester	Courses		Examination Structure			
	Code	Papers	Credits	Mid Semester Theory (F.M.)	End Semester Theory (F.M.)	End Semester Practical/ Viva (F.M.)

INSTRUCTION TO QUESTION SETTER

SEMESTER INTERNAL EXAMINATION (SIE):

There will be Only One Semester Internal Examination in Major, Minor and Research Courses, which will be organized at college/institution level. However, Only One End semester evaluation in other courses will be done either at College/ Institution or University level depending upon the nature of course in the curriculum.

A. (SIE 10+5=15 marks):

There will be two group of questions. **Question No.1 will be very short answer type in Group A** consisting of five questions of 1 mark each. **Group B will contain descriptive type** two questions of five marks each, out of which any one to answer.

The Semester Internal Examination shall have two components. (a) One Semester Internal Assessment Test (SIA) of 10 Marks, (b) Class Attendance Score (CAS) of 5 marks.

B. (SIE 20+5=25 marks):

There will be two group of questions. **Group A is compulsory** which will contain two questions. **Question No.1 will be very short answer type** consisting of five questions of 1 mark each. **Question No.2 will be short answer type** of 5 marks. **Group B will contain descriptive type** two questions of ten marks each, out of which any one to answer.

The Semester Internal Examination shall have two components. (a) One Semester Internal Assessment Test (SIA) of 20 Marks, (b) Class Attendance Score (CAS) of 5 marks.

Conversion of Attendance into score may be as follows:

Attendance Upto 45%, 1mark; 45<Attd.<55, 2 marks; 55<Attd.<65, 3 marks; 65<Attd.<75, 4 marks; 75<Attd, 5 marks.

END SEMESTER UNIVERSITY EXAMINATION (ESE):

A. (ESE 60 marks):

There will be two group of questions. **Group A is compulsory** which will contain three questions. **Question No.1 will be very short answer type** consisting of five questions of 1 mark each. **Question No.2 & 3 will be short answer type** of 5 marks. Group B will contain descriptive type five questions of fifteen marks each, out of which any three are to answer.

B. (ESE 75 marks):

There will be two group of questions. **Group A is compulsory** which will contain three questions. **Question No.1 will be very short answer type** consisting of five questions of 1 mark each. **Question No. 2 & 3 will be short answer type** of 5 marks. Group B will contain descriptive type six questions of fifteen marks each, out of which any four are to answer.

C. (ESE 100 marks):

There will be two group of questions. **Group A is compulsory** which will contain three questions. **Question No.1 will be very short answer type** consisting of ten questions of 1 mark each. **Question No. 2 & 3 will be short answer type** of 5 marks. Group B will contain descriptive type six questions of twenty marks each, out of which any four are to answer.

FORMAT OF QUESTION PAPER FOR SEMESTER INTERNAL EXAMINATION**Question format for 10 Marks:**

Subject/ Code		Exam Year
F.M. =10	Time=1Hr.	
General Instructions:		
i. Group A carries very short answer type compulsory questions.		
ii. Answer 1 out of 2 subjective/ descriptive questions given in Group B .		
iii. Answer in your own words as far as practicable.		
iv. Answer all sub parts of a question at one place.		
v. Numbers in right indicate full marks of the question.		
<u>Group A</u>		
1.		[5x1=5]
i.	
ii.	
iii.	
iv.	
v.	
<u>Group B</u>		
2.	[5]
3.	[5]
Note: There may be subdivisions in each question asked in Theory Examination.		

Question format for 20 Marks:

Subject/ Code		Exam Year
F.M. =20	Time=1Hr.	
General Instructions:		
i. Group A carries very short answer type compulsory questions.		
ii. Answer 1 out of 2 subjective/ descriptive questions given in Group B .		
iii. Answer in your own words as far as practicable.		
iv. Answer all sub parts of a question at one place.		
v. Numbers in right indicate full marks of the question.		
<u>Group A</u>		
1.		[5x1=5]
i.	
ii.	
iii.	
iv.	
v.	
2.	[5]
<u>Group B</u>		
3.	[10]
4.	[10]
Note: There may be subdivisions in each question asked in Theory Examination.		

FORMAT OF QUESTION PAPER FOR END SEMESTER UNIVERSITY EXAMINATION**Question format for 50 Marks:**

F.M. =50	Subject/ Code Time=3Hrs.	Exam Year
General Instructions:		
i. Group A carries very short answer type compulsory questions.		
ii. Answer 3 out of 5 subjective/ descriptive questions given in Group B .		
iii. Answer in your own words as far as practicable.		
iv. Answer all sub parts of a question at one place.		
v. Numbers in right indicate full marks of the question.		
<u>Group A</u>		
1.		[5x1=5]
i.	
ii.	
iii.	
iv.	
v.	
<u>Group B</u>		
2.	[15]
3.	[15]
4.	[15]
5.	[15]
6.	[15]
Note: There may be subdivisions in each question asked in Theory Examination.		

Question format for 60 Marks:

F.M. =60	Subject/ Code Time=3Hrs.	Exam Year
General Instructions:		
i. Group A carries very short answer type compulsory questions.		
ii. Answer 3 out of 5 subjective/ descriptive questions given in Group B .		
iii. Answer in your own words as far as practicable.		
iv. Answer all sub parts of a question at one place.		
v. Numbers in right indicate full marks of the question.		
<u>Group A</u>

SEMESTER I

I. MAJOR COURSE –MJ 1: EVOLUTION OF GEOGRAPHICAL THOUGHT

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To explain the concept, definition and scope of Geography as a distinct discipline
2. To recognize the various branches, streams and school of thought in Geography

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Distinguish the paradigms in geography discipline through time
2. Understand the geographical thinking in different regions of world
3. Appreciate the past and future trends of world geography in general and Indian geography in particular

Course Content:

Unit 1- Definition, nature and scope of geography, Development of geographical thought in India. Paradigms in Geography

Unit 2- Pre-Modern- Early Origins of Geographical Thinking with reference to the Classical and Medieval Philosophies.

Unit 3- Modern -Evolution of Geographical Thinking and Disciplinary Trends in Germany, France, Britain, United States of America.

Unit 4- Debates - Environmental Determinism and Possibilism, Neo-Determinism/ Probablism Systematic and Regional, Ideographic and Nomothetic.

Unit 5- Trends - Quantitative Revolution and its Impact, Behaviouralism, Systems Approach, Radicalism, Feminism; Towards Post-Modernism - Changing Concept of Space in Geography, Future of Geography, Paradigmatic shift in geography

Reference Books:

11. Martin Geoffrey J., (2005): All Possible Worlds: A History of Geographical Ideas, Oxford.
12. Sudeepta, Adhikari., (2015): Fundamentals of Geographical Thought, Orient Black Swan Pvt Ltd, Hyderabad

II. SKILL ENHANCEMENT COURSE- SEC 1: FIELD TECHNIQUES AND SURVEYING METHODS

Marks: 75 (ESE: 3Hrs) = 75

Pass Marks: Th (ESE) = 30

(Credits: Theory-03) **45 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students the techniques of field work, its merit and demerit
2. To make student learn about designing field report, interpretation techniques, and writing the report

Course Learning Outcome:

After the completion of the course, the students will have the ability to:

1. Conduct field work in physical and human geography
2. Develop tools to collect primary data from the field and interpret them meaningfully;
3. Prepare field report with suitable tables, maps and diagrams based on the field data

Course Content:

Unit 1- Field work in Geographical Studies – Definition, Concept, Role, Value and Ethics of Field work.

Unit 2- Defining the Field and Identifying the Case Study – Rural / Urban / Physical / Human / Environmental, Types of data.

Unit-3- Field Techniques – Merits, Demerits and Selection of the Appropriate Technique; Observation method (Participant / Non Participant); Surveying methods: Questionnaires and schedule (Open/ Closed / Structured / Non-Structured); Interview with Special Focus on Focused Group Discussions;

Unit-4- Designing the Field Report – Aims and Objectives, Methodology, Analysis, Interpretation and Writing the Report.

Practical Record

1. Each student will prepare an individual report based on primary and secondary data collected during field work.
2. The word count of the report should be about 6,000 to 10,000 excluding figures, tables, photographs, maps, references and appendices.
3. Students are advised to make use of navigation satellite positioning (GNSS/GPS) during observation and its report. One copy of the report on A4 size paper should be submitted in soft binding.

SEMESTER II

I. MAJOR COURSE- MJ 2: PHYSICAL GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To explain the concept, definition and scope of earth systems
2. To recognize the structure of the earth, its atmosphere and describe its characteristic features

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. To classify earth into various domains according to its physical features
2. Understand the elements of weather and climate and its impacts at different scales.
3. Understand the oceanic process and availability of resources.

Course Content:

Unit 1- Geomorphology: Nature and Scope, Origin of the solar system, Earth: Interior Structure and Isostasy; Earth Movements: Plate Tectonics, Types of Folds and Faults, Earthquakes and Volcanoes.

Unit 2- Geomorphic Processes: gradation (erosion and weathering), Cycle of Erosion (Davis and Penck).

Evolution of Landforms (Erosional and Depositional): Fluvial, Karst, Aeolian, Glacial, and Coastal;

Unit 3- Climatology- Atmospheric Composition and Structure; Insolation, Atmospheric Pressure and Winds

Unit 4- Climatic classifications (Koppen's and Thornthwaite) and Regions. Cyclones: Tropical and Temperate Cyclones, Monsoon - Origin and Mechanism, El-Nino.

Unit 5- Oceanography- Ocean Floor Topography and Oceanic Water Movements: Waves, Currents and Tides. Ocean Salinity: Distribution and Determinants; Coral Reefs and Marine Deposits.

Reference Books:

10. Shukla, J (2016) Geomorphology, Disha International Publishing House, Delhi

II. MAJOR COURSE- MJ 3: PRACTICALS-I: (CARTOGRAPHIC TECHNIQUES)

Marks: Pr (ESE: 3Hrs) =100	Pass Marks: Pr (ESE) = 40
----------------------------	---------------------------

(Credits: Practicals-04) **120 Hours****Instruction to Question Setter for****End Semester Examination (ESE):**

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment	= 60 marks
Practical record notebook	= 15 marks
Viva-voce	= 25 marks

Course Objective:

The Learning objective of this course are as follows-

1. To explain the concept of scale, cross profiles, and weather maps
2. To familiarise students about topographical maps, various types of projections

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Read and prepare maps.
2. Comprehend locational and spatial aspects of the earth surface.
3. Use and importance of maps for regional development and decision making.

Course Content:

Unit 1- Scale-Plain, Comparative, Diagonal

Unit 2- Cross Profiles- Serial, Superimposed, Projected, Composite; Geological Map/ cross-section: 1,2,6,8,10,12,15,17 and completion of geological maps

Unit 3- Topographical Map: Introduction, Interpretation, Identification of physical and cultural features

Unit 4- Projection: Simple Conical (one standard and two standard parallel), Bonne's , Cylindrical (Equal area and equi-distant, Gall's Stereographic) Zenithal (Polar Zenithal- Gnomonic and Stereographic Zenithal) Mercator's, Globular, Interpreted Sinusoidal and Mollweide projection

Unit 5- Interpretation of weather maps, drawing of Climograph & Hythergraph

Practical Record: Practical record book- at least one exercise from all the topics.

Reference Books:

1. Misra, R.P.,(2014): Fundamentals of Cartography (Second Revised and Enlarged Edition), Concept Publishing, New Delhi.
2. Monkhouse, F. J. and Wilkinson, H. R.,(1973): Maps and Diagrams, Methuen, London.

8. Singh,R.L.& Singh, Rana. P.B.,(1991):Prayogtmak Bhugol ke Mool Tatva (Hindi), Kalyani Publishers, New Delhi
9. Steers, J.A. (1970):An Introduction to the Study of Map Projections, University of London Press, London.

III. SKILL ENHANCEMENT COURSE- SEC 2: INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEM AND GPS

Marks: 75 (ESE: 3Hrs) = 75

Pass Marks: Th (ESE) = 30

(Credits: Theory-03) **45 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students the techniques of Geographical information system (GIS), its components
2. To make student learn about application of GIS in Natural resource management, urban sprawl, land use land cover

Course Learning Outcome:

After the completion of the course, the students will have the ability to:

1. Appreciate the basic principles and components of GIS;
2. Apply raster and vector data structure for GIS analysis;
3. Analyse the basic resources, land use and urban related data using GIS software for meaningful interpretation.

Course Content:

Unit 1- Geographic Information System (GIS): Meaning, Definition, and its Components.

Unit 2- GIS Data Structures: Types (Spatial and Non-spatial), Raster and Vector Data Structure; GIS Data Analysis, Overlays and network analysis.

Unit 3. Recent Trends in GIS; Application of GIS, GIS in land resource management (LIS)- Jharbhoomi, Biharbhumi, Bhuvan (ISRO-NRSC) platform and its services

Unit 4- Global Positioning System (GPS) and Indian Regional Navigation Satellite System (IRNSS/NavIC)– Definition and Components; Principles and Application of GPS

Unit 5- Collecting waypoint using GPS handsets or mobile apps (GPS Waypoint/others), geotagging, Transferring waypoint to computer, editing non-spatial information, creating basic maps using waypoints

SEMESTER III

I. MAJOR COURSE- MJ 4: HUMAN AND SETTLEMENT GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100	Pass Marks: Th (SIE + ESE) = 40
--	---------------------------------

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To explain the concept, definition and themes of human geography
2. To familiarise students about human settlement types and patterns

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Know the changing human and cultural landscape at different levels.
2. Understand patterns and processes of population growth and its implications.
3. Appreciate the nature and quality of human landscapes

Course Content:

Unit 1- Introduction: Defining Human Geography; Major Themes; Contemporary Relevance, World migration pattern

Unit 2- Space and Society: Cultural Regions; Race; Religion and Language, Racial conflicts

Unit 3- Human adaptation to extreme environment- Eskimos, Bushman, Pgymi, Gond

Unit 4- Settlements: Types and pattern of Rural Settlements; Classification of Urban Settlements; Trends and Patterns of World Urbanization

Unit 5- Primate city, Rank size rule, Central Place theory by Christler,

Reference Books:

-

II. MAJOR COURSE- MJ 5: PRACTICALS-II: (STATISTICAL METHODS IN GEOGRAPHY)

Marks: Pr (ESE: 3Hrs) =100	Pass Marks: Pr (ESE) = 40
----------------------------	---------------------------

(Credits: Practicals-04) **120 Hours****Instruction to Question Setter for****End Semester Examination (ESE):**

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment	= 60 marks
Practical record notebook	= 15 marks
Viva-voce	= 25 marks

Practicals:**Course Objective:**

The Learning objective of this course are as follows-

1. To explain the concept quantitative information in general and Geographical data in particular.
2. To explain the importance of data analytics. The ways data is collected, or data is taken from different sources.
3. To familiarise students about methods of graphic data representations

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Use statistical methods and techniques in geographical analysis
2. Understand quantitative data, methods of sampling, graphical data representation.
3. Understand method of population projection

Course Content:

Unit 1- Use of Data in Geography: Significance of Statistical Methods in Geography; Sources of Data, Scales of Measurement (Nominal, Ordinal, Interval and Ratio).

Unit 2- Tabulation and Descriptive Statistics: Frequencies (Deciles, Quartiles), Cross Tabulation, Central Tendency (Mean, Median and Mode, Centro-graphic Techniques, Dispersion (Standard Deviation, Variance and Coefficient of Variation).

Unit 3- Sampling: Purposive, Random, Systematic and Stratified. Association and Correlation: Rank Correlation, Product Moment Correlation, and Simple Regression.

Unit 4- Diagrammatic Data Presentation –Choropleth, Dot, pie, spherical and Proportional Circles; Point Data Isopleths

Unit 5- Graphic representation -Histogram, polygons, frequency curve (Ogive), Scatter diagram, Lorenz curve, Block pile diagram, Method of population projection

Practical Record: Each student will submit a record containing exercises from each topic

Reference Books:

III. SKILL ENHANCEMENT COURSE- SEC 3: ELEMENTARY COMPUTER APPLICATION SOFTWARES

Marks: 75 (ESE: 3Hrs) = 75	Pass Marks: Th (ESE) = 30
----------------------------	---------------------------

A Common Syllabus for FYUGP

(Credits: Theory-03) **45 Hours**

*Instruction to Question Setter for
End Semester Examination (ESE):*

*There will be **objective type test** consisting of **Seventy-five questions of 1 mark each**. Students are required to mark their answer on **OMR Sheet** provided by the University.*

Course Objectives:

The objective of the course is to generate qualified manpower in the area of Information Technology (IT) and Graphic designing which will enable such person to work seamlessly at any Offices, whether Govt. or Private or for future entrepreneurs in the field of IT.

A. INTRODUCTION TO COMPUTER SYSTEM

1. Basic Concept of Computer: What is Computer, Applications of Computer, Types of computer, Components of Computer System, Central Processing Unit (CPU) **(3 Lecture)**

2. Concepts of Hardware: Input Devices, Output Devices, Computer Memory, Types of Memory, processing Concept of Computer **(4 Lecture)**

3. Operating system: What is an Operating System, Operating System Examples, Functions of Operating System(Basic), Introduction to Windows 11, Working on Windows 11 environment, Installation of Application Software, My Computer, Control Panel, searching techniques in windows environment, Basic of setting **(6 Hours)**

4. Concept of Software: What is Software, Types of Software, Computer Software- Relationship between Hardware and Software, System Software, Application Software, some high level languages **(4 Hours)**

5. Internet & its uses: Basic of Computer networks; LAN, WAN, MAN, Concept of Internet, Applications of Internet; connecting to internet, what is ISP, World Wide Web, Web Browsing software's, Search Engines, URL, Domain name, IP Address, using e-governance website, Basics of electronic mail, getting an email account, Sending and receiving emails. **(6 Hours)**

B. MICROSOFT OFFICE 2016 AND LATEST VERSIONS

6. Microsoft Word: Word processing concepts, Creation of Documents, Formatting of Documents, Formatting of Text, Different tabs of word 2016 environment, Formatting Page, Navigation of Page, Table handling, Header and footer, Page Numbering, Page Setup, Find and Replace, Printing the documents **(7 Hours)**

7. Microsoft Excel (Spreadsheet): Spreadsheet Concepts, Creating, Saving and Editing a Workbook, Inserting, Deleting Work Sheets, Formatting worksheet, Excel Formula, Concept of charts and Applications, Pivot table, goal seek, Data filter, data sorting and scenario manager, printing the spreadsheet **(6 Hours)**

8. Microsoft Power Point (Presentation Package): Concept and Uses of presentation package, Creating, Opening and Saving Presentations, working in different views in Power point, Animation, slide show, Master Slides, Creating photo album, Rehearse timing and record narration **(5 Hours)**

9. Digital Education: What is digital education, Advantages of digital Education, Concept of e-learning, Technologies used in e learning **(4 Hours)**

Reference Books

SEMESTER IV

I. MAJOR COURSE- MJ 6: WORLD REGIONAL GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To explain the physical features, drainage and climatic feature of continents
2. To familiarise students about major physiographic region of continents

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Locate physical features of the world major continents.
2. Understand climatic condition and climatic pattern of the continents.
3. Understand the drainage of the continents

Course Content:

Unit 1- Asia - Physical features, Drainage & Climatic condition & Climatic Regions; agriculture and major industry; geographical account of Great plains of China, Indus basin

Unit 2-Europe- Physical features, Drainage & Climatic condition & Climatic Regions, agriculture and major industry, geographical account of Steppe's grassland, Rhine basin

Unit 3-North America - Physical features, Drainage & Climatic condition & Climatic Regions, agriculture and major industry, geographical account of Appalachian Highland, Central Plains

Unit 4-South America - Physical features, Drainage & Climatic condition & Climatic Regions, agriculture and major industry, geographical account of Pampas, and Amazon Rainforest

Unit 5-Australia & New Zealand (Oceania) - Physical features, Drainage & Climatic condition & Climatic Regions, agriculture and major industry, geographical account of Dawns grassland, and Great Sandy desert

References-

II. MAJOR COURSE- MJ 7: FUNDAMENTALS OF REMOTE SENSING & GIS

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To explain the meaning, concept, and definition Remote sensing and GIS, as an important tool in the study and explaining geographic phenomenon
2. To familiarise students about satellite remote sensing, data processing and interpretation, classification
3. To aware students about use of GPS and GIS, its principle, working mechanism and applications

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Appreciate the strength and application of remote sensing and GIS
2. Map the resources, their location and availability
3. Apply this knowledge for sustainable development

Course Content:

Unit 1- Remote Sensing: Meaning, Definition & Scope; Development of Remote Sensing; Components and Process of Remote Sensing; EMR Interaction with Atmosphere and Earth Surface;

Unit 2- Remote Sensing Platforms & Sensors, Satellite Imagery Interpretation: Visual & Digital Interpretation Techniques; Elements and Interpretation Keys for Visual Interpretation. (Shape, Size, Colour, Tone, Texture, Association), Image Enhancement Techniques; Application of Remote Sensing

Unit 3- Geography & Geographic Information System: Definition & Development of GIS; Elements and components of GIS, Spatial Data: Elements & Types of Spatial Data; Raster & Vector Data Structures;

Unit 4- Coordinate Systems, Geo- Referencing of Spatial Data, GIS Database: Creation of Spatial & Non-Spatial Data Base;;

Unit 5- Digital Elevation Models (DEM), Basic Principles of Computer Assisted Cartography. Integration of GIS with Remote Sensing & Global Positioning System (GPS)

Reference Books:

1. Anji Reddy, M. (2008): Textbook of Remote Sensing and Geographic Information System, B.S. Publication, Hyderabad
2. Campbell, J. B., (2007): Introduction to Remote Sensing, Guildford Press.
3. Chauniyal, D.D., (2010): Sudur Samvedan evam Bhogolik Suchana Pranali (Hindi), Sharda Pustak Bhawan, Allahabad.
4. Jensen, J. R., (2004): Introductory Digital Image Processing: A Remote Sensing Perspective, Prentice Hall Inc., New Jersey.
5. Jensen, J.R. (2007): Remote Sensing of the Environment: An Earth Resource Perspective, Prentice-Hall Inc., New Jersey.
6. Joseph, G. (2005): Fundamentals of Remote Sensing, United Press India.
7. Lillisand, T.M., and Kiefer, P.W., (2007): Remote Sensing and Image Interpretation, 6th Edition, John Wiley & Sons, New York.

III. MAJOR COURSE- MJ 8: PRACTICALS-III: (REMOTE SENSING & GIS)

Marks: Pr (ESE: 3Hrs) =100	Pass Marks: Pr (ESE) = 40
----------------------------	---------------------------

(Credits: Practicals-04) **120 Hours****Instruction to Question Setter for****End Semester Examination (ESE):**

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment	= 60 marks
Practical record notebook	= 15 marks
Viva-voce	= 25 marks

Practicals:**Course Objective:**

The Learning objective of this course are as follows-

1. To familiarise students to use satellite remote sensing imagery, data interpretation, ground data verification and classification using computers or manually
2. To make students learn application of GIS, GPS technology, land use and vegetation mapping

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Use and apply methods of remote sensing, GIS and GPS
2. Map the resources, their location and availability and changes
3. Apply technology in solving many real time problems and issues in land use, forestry management

Course Content:

Unit 1- Image Analysis: Principles of Visual Image Interpretation, Recognition Elements and Interpretation Keys for Visual Interpretation. (Shape, Size, Colour, Tone, Texture, Association); Interpretation of a Satellite Image (Landsat, LISS III, LISS IV, Cartosat etc).

Unit 2- Introduction to Digital Image Processing, Image Rectification and Registration, Image Enhancement, Browsing Satellite Data (NRSC, GLCF, Glovis), Image Display, Preparing Mosaic, Layer Stack etc.

Unit 3- True Colour and False Colour Composite Images and Preparation of Interpretation Keys; Mapping Land Use/land Cover with any Software (at least one exercise each on Point, Line and Polygon Features), Vegetation Mapping using NDVI, Supervised and Unsupervised Classification, Accuracy Assessment and Ground Truthing; Digital Elevation Models.

Unit 4- Introduction to GIS Software, Geo-Referencing and Projection, Spatial Data Entry, Editing, Topology Creation and Linking Spatial and Non Spatial Data, Spatial Data Visualization, Output Map Generation

Practical Record: Practical record book- at least one exercise from all the topics.

Reference Books:

1. Chauniyal, D.D., (2010): Sudur Samvedan evam Bhogolik Suchana Pranali (Hindi), Sharda Pustak Bhawan, Allahabad.
2. Jensen, J.R. (2007): Remote Sensing of the Environment: An Earth Resource Perspective, Prentice-Hall Inc., New Jersey.
3. Joseph, G. (2005): Fundamentals of Remote Sensing, United Press India.

SEMESTER V

I. MAJOR COURSE- MJ 9: ECONOMIC GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students about nature, scope and importance of economic geography
2. To explain the concepts of industrial location, various types of economic activities

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Distinguish different types of economic activities and their utilities.
2. Appreciate the factors responsible for the location and distribution of activities.
3. Examine the significance and relevance of theories in relation to the location of different economic activities.

Course Content:

Unit 1- Nature, scope and importance of Economic Geography, Spatial Structure of Economy. Factors Affecting location of Economic Activity with special reference to Agriculture, Industry and Industrial location (Weber's and Losch theory)

Unit 2- Primary Economic Activities: Hunting, Fishing, Food gathering, Agriculture and Mining, Subsistence and Commercial Economic Activities; Fishing ground and aquaculture. Issues and Challenges for the Development of fishing and forestry.

Unit 3- Secondary Activities: Manufacturing, Concept of Manufacturing Regions (Cotton Textile, Iron and Steel), Special Economic Zones and Technology Parks. Knowledge –based Technologies, Electronic age, spatial information Technology, Telecommunication

Unit-4 Tertiary Activities: Transport (Land, Air, Water and Pipelines), Trade (National and International) and Services.

Unit 5- Economic Growth and Development; Definition, concept of Development and Sustainable Development, Human resource development; concept, Measurement, indicators and component;

Reference Books:

1. Alexander, J. W., (1963): Economic Geography, Prentice-Hall Inc., Englewood Cliffs, New Jersey.
 2. Bagchi-Sen, S. and Smith, H. L., (2006): Economic Geography: Past, Present and Future, Taylor and Francis.
 3. Clark, Gordon L.; Feldman, M.P. and Gertler, M.S., eds. (2000): The New Oxford Handbook of Economic Geography, Oxford Press.

 9. Saxena, H.M., (2013): Economic Geography, Rawat Publications, Jaipur.
 10. Siddhartha, K., (2013): Economic Geography, Kisalaya Publications Pvt. Ltd., New Delhi
-

II. MAJOR COURSE- MJ 10: GEOGRAPHY OF INDIA & JHARKHAND

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students about physical geography of India, its demography, social attributes
2. To explain the concepts of regionalisation on the basis of physiography, socio-cultural and economic characteristics

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Understand the physical profile of the country
2. Study the resource endowment and its spatial distribution and utilization for sustainable development
3. Synthesis and develop the idea of regional dimensions.

Course Content:

Unit 1- Physical: Location, Physiographic Divisions, Climate: characteristics and classification; Soil and Natural vegetation

Unit 2- Population: Distribution and Growth, Structure; Social: Distribution of Population by Race, Caste, Religion, Language, Tribes and their Correlation.

Unit 3- Regionalisation of India: Physiographic (R. L. Singh), Socio-Cultural (Sopher), Economic (Sengupta)

Unit 4- Economic: Mineral and Power Resources: Distribution and Utilization of Iron Ore, Coal, Petroleum, Gas; Agricultural Production of Rice, Wheat, Cotton and Sugarcane; Industrial Development: Industrial Corridors and Industrial Regions.

Unit 5- Regional Account of Jharkhand: Geological structure, Physiography, Drainage, Climate, Natural vegetation, Population and Tribes (Santhal, Oraon, Munda); Economic features: Agriculture, Minerals and Industry -Iron and Steel Industry, Silk, Tourism

Reference Books:

13. Tiwari, R.C. (2007): Geography of India. Prayag Pustak Bhawan, Allahabad

**III. MAJOR COURSE- MJ 11:
PRACTICALS-IV:
(INSTRUMENTAL SURVEY AND SOCIO-ECONOMIC PROJECT WORK)**

Marks: Pr (ESE: 3Hrs) =100	Pass Marks: Pr (ESE) = 40
----------------------------	---------------------------

(Credits: Practicals-04) **120 Hours****Instruction to Question Setter for**End Semester Examination (ESE):

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment = 60 marks

Practical record notebook = 15 marks

Viva-voce = 25 marks

Practicals:**Course Objective:**

The Learning objective of this course are as follows-

1. To familiarise students about various Instruments, methods, tools and techniques of ground survey
2. To make student learn and apply project development, carrying out primary survey for data collection

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Understand the importance of field work, types of survey and application of instruments for leveling
2. Handle and apply the instrument to measure height, spot height determination techniques
3. Synthesis and develop the idea of project work on the basis of secondary and primary survey.

Course Content:

Unit 1: Importance of field work, Scope and purpose, Types of survey, Principles and applications of selected survey instruments, Plane Table, Plan preparation, Resection method: two-point problem, three-point problem, all methods.

Unit 2: Prismatic Compass: Open and closed traverse, Other smaller instruments: Sextant, Abney Level and Indian Clinometer. Dumpy Level: Traverse Survey, Spot height determination and contour plan preparation,

Unit 3: Theodolite: horizontal and vertical (height) measurement, Accessible and inaccessible method. Survey of selected area, Preparation of base map by the use of surveying instruments.

Unit 4: Socio-economic project work based on primary or secondary data sources

Practical Record:

- a. Practical record book- at least one exercise from all the topics.
- b. Unit 4- a project report- word count of the report should be about 5,000 to 8,000 excluding figures, tables, photographs, maps, references and appendices

Reference Books:

8. Kaanetkar and Kulkarni: Surveying and Levelling, Part-I and Part-II.

SEMESTER VI

I. MAJOR COURSE- MJ 12: POPULATION GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100	Pass Marks: Th (SIE + ESE) = 40
--	---------------------------------

(Credits: Theory-04) **60 Hours**

Course Objective

The Learning objective of this course are as follows-

1. To familiarize student with the nature and scope of Population geography.
2. To make students learn about the population change, and its dynamics

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Know the pattern of population change and its dynamics.
2. Understand processes of population growth and its implications.
3. Appreciate the growth, distribution and composition of population in different parts of the world

Course Content:

Unit 1: - Nature and Scope of Population Geography, Population Geography and Demography, Sources of Population Data, Distribution and Density of Population, Distribution and its Pattern in the World, Factors Influencing Distribution of Population in the world.

Unit 2:- Concept of Population Composition, Population Change: Growth of Population in the World and India, Components of Population Change, Fertility, Mortality and Migration, Determinants of Fertility and Mortality, Demographic Transition Theory.

Unit 3:- Migration - Meaning and Types, Causes and Consequences, Theories of Migration – Ravenstein & Lee.

Unit 4:- Population and Resources, Optimum Population, Population Projection, Malthus Population Theory, Population Policy of India

Unit 5- Population-Resource Relationship, Population Resource Regions, Trends of world population and policy

Reference Books:

1. Chandna R.C. (2009), Geography of Population, Kalyani Publicishers, Ansari Road, Daryaganj, N. Delhi-2.

 11. Dubey, K.K. & Singh, M.B. (2001): Jansankhya Bhugol, Rawat Publication, Jaipur.
 12. Roy, Debjani (2022) Population Geography, Books and Allied publisher, Kolkata
-

II. MAJOR COURSE- MJ 13: AGRICULTURAL GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective

The Learning objective of this course are as follows-

1. To familiarize student about the nature, scope, significance and approaches of agriculture geography.
2. To make students learn about the determinants of agricultural land use, new trends in Indian Agriculture, food security

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Conceptualize the agriculture and its determinants.
2. Get the overview of Indian agriculture regions and systems.
3. Have sound knowledge of agriculture revolutions and food security

Course Content:

Unit 1- Nature and scope, Significance and development of agricultural geography, Approaches to the study of agricultural geography, Origin and dispersal of agriculture, Sources of agricultural data.

Unit 2- Determinants of agricultural land use – Physical, economic, social and technological, Land holding and land tenure systems, Land reforms

Unit 3- Land use policy and planning, Cropping pattern, Intensity of cropping.

Unit 4- Theories of agricultural location based on several multi-dimensional factors, Von Thunen's model and its recent modifications, Whittlesey's classification of agricultural regions, Agro-climatic regions of India.

Unit 5- Agriculture in India – Land use and shifting cropping pattern, New trends in Indian agriculture, Green Revolution, White Revolution, Blue Revolution, Problems of Indian agriculture, Agricultural Policy of India, Food security

III. MAJOR COURSE- MJ 14: REGIONAL PLANNING AND DEVELOPMENT

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective

The Learning objective of this course are as follows-

1. To familiarize the concept of Region and regional planning, Its need and techniques
2. To make students learn about the theories and models for regional planning, Indicators of development, Multi-Purpose Projects

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Identify notable lagging regions and solutions for their overall development
2. Have comprehensive understanding regarding the different regions and application of different models and theories for integrated regional development.
3. Select appropriate indicators for the measurement of socio-economic regional development

Course Content:

Unit 1- concept of Region, Types, hierarchy, characteristics and delineation of Regional planning, Geography of regional planning, concept, scope, methods, techniques and need of regional planning. Regionalization of India for Planning (Agro Ecological Zones)

Unit 2- Theories and Models for Regional Planning: Growth Pole Model of Perroux; Growth Centre Model in Indian Context; Myrdal, Hirschman, Rostow and Friedmann; evaluation of regional disparities/imbbalances, method of measuring imbalances

Unit 3- Concept of Development, Indicators of development, problems and issues of development, planning process-sectoral, multi-level, decentralized planning,

Unit 4- Integrated area development (IADP), planning tribal and hill areas, draught prone areas, command areas in watershed, Border area development, Urban Green belt, Planning for metropolitan region

Unit 5- Niti Ayog, Policy and framework; backward regions: identification and its development- a case study- Dandakaranya, North-East region; Multi-Purpose river valley projects- Damodar, Sardar Sarovar Project

**IV. MAJOR COURSE- MJ 15:
PRACTICALS-V: (PHYSICAL SURVEY PRACTICAL)****Marks: Pr (ESE: 3Hrs) =100****Pass Marks: Pr (ESE) = 40****(Credits: Practicals-04) 120 Hours****Instruction to Question Setter for****End Semester Examination (ESE):**

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment	= 60 marks
Practical record notebook	= 15 marks
Viva-voce	= 25 marks

Practicals:**Course Objective**

The Learning objective of this course are as follows-

1. To develop and expose students to an extensive field survey of wider region of India.
2. To make students identify various physical landforms, processes, and their impact on human and biological world

Learning Outcomes:

After the completion of course, the students will have ability to:

1. to conduct an extensive survey of a contiguous wider region of India
2. identify salient landforms, their genesis and their impact on human life, flora and fauna.
3. Carrying out extensive field study outside the class room

Unit 1: Trace the prominent features of the area to be surveyed. Identify the salient landform features of the selected area on a topographical sheet.

Unit 2: Identify the landforms on the surface, while in the field. Also note the agents of erosion, transportation and deposition associated with the landforms.

Unit 3: Identify and classify the biodiversity in the area (Flora and Fauna).

Unit 4: Observe the relationship of various landforms, flora and fauna with land use, settlement, structure and life style of the people.

Note:

1. University/College will provide the requisite fund for conducting the survey
2. Based on observations of the above characteristics, prepare a field survey report. The report need to be supplemented with maps, sketches, diagrams and photographs etc.
3. The practical exercises should aim at identification of micro-geomorphic features on the ground and their relationship to land use/settlement pattern. This is also a training in Report Writing.
4. Two written questions in the practical examination based on the physical survey report-
 - a. writing method
 - b. physical survey

SEMESTER VII

I. MAJOR COURSE- MJ 16: NATURAL RESOURCE MANAGEMENT AND ENVIRONMENTAL GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarize the concept of Natural resource management, and its concepts
2. To make students learn about the Ecosystem, its structure, functions and various policy with regard to environmental conservation

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Understand the dynamic interactive relationship between man and environment.
2. Have sound understanding on distribution, utilization and proper management of natural resources at global level.
3. Make assessment and review of planning and policies related to environment and natural resources.

Course Content:

Unit 1- Environment and Natural Resource Management: Concept, Human-Environment Relationships;

Unit 2- Ecosystem: Concept, Structure and Functions.

Environmental Issues in Tropical, Temperate and Polar Ecosystems.

Unit 3- Natural Resource: Concept, Classification; Distribution, Utilization, Problems and Management of Land, Water Forests and Energy.

Unit 4- Appraisal and Conservation of Environment and Natural Resources and Sustainable Resource Development.

Unit 5- Environmental Programmes and Policies – Global, National and Local levels

Reference Books:

II. MAJOR COURSE- MJ 17: SOCIAL AND TRIBAL GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarize the about social geography, its concept, nature and scope; migration social categories
2. To make students learn about Tribal geography and its concepts; Tribes and their economic activities, marriage, faith and practices

Learning Outcomes:

After the completion of course, the students will have ability to:-

1. Understand the nature, scope and relationships of geography and human wellbeing;
2. Acquire knowledge on spatial dimensions of social diversity components;
3. Understand the aspects of Tribal geography and tribal socio-economic activities

Course Content:

Unit 1- Social Geography: Concept, Origin, Nature and Scope.

Unit 2- Peopling Process of India: Technology and Occupational Change; Migration.

Unit 3- Social Categories: Caste, Class, Religion, Race and Gender and their Spatial distribution

Unit 4- Tribal Geography- meaning, concept, and scope of tribal geography; Tribes and their habitat- Geographical distribution of Indian tribes, groups and sub-groups; Economic activities; Socio- Political Organization- Family, Marriage and kinship, faith, beliefs and practices,

Unit 5- Tribal rights- Land, forests, water; Emerging social problems- Health and education, malnutrition, illiteracy, Alcoholism; Industrialization and tribe, mining and tribes, displacement

III. MAJOR COURSE- MJ 18: TRANSPORT AND TOURISM GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To be aware of the various dimensions of Tourism Geography and make the students aware about various types of tourism
2. To assess sustainable ecotourism and other contemporary forms of tourism
3. To critically evaluate the infrastructure in tourism in India along with reviewing the tourism policy

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Learn the concept of transport, its types and factors
2. Equip with a basic understanding of nature and scope, trends and patterns of various types of tourisms
3. Apply the principles of Geo-tourism and analyse the prospects and problems associated with pilgrimage tourism.

Contents:

Unit- I Nature, scope, significance of and Development of Transport Geography, factors of Development: Physical, Economic, Social, Economic and transport and regional Modes development, relative significance of transport (railways, roadways, Waterways).

Unit- II Accessibility and flow models; network structure, measurement of accessibility, Models of network change, Function, pattern of movement and transport Development.

Unit- III Nature, scope and extent, concept of tourism, Relationship between geography and Tourism, Eco-tourism, Geotourism, Agro-tourism, Heritage Religions tourism and Adventure tourism.

Unit-IV Types of tourism- Domestic and the international, Adventure, wildlife, Pilgrimage, Business, Leisure, Pleasure, and cultural tourism, Local, National and international, Socio-Economic impact of tourism.

Unit-V Infrastructural approach for the development of tourism, Govt. policies for Planning and Promotion of tourism in India, prospect and manning of tourism in India. Case studies: Hill Station – Mount Abu, Shimla, Ooty, Beach points- Kwalum, Goa and Mariano Beach, Historical Centre – Mysore, Jaipur, Delhi, Religious-Puri, Deoghar Tirupati, Kedarnath, Mahakal (Ujjain); Dams- Tehri, Hirakud, Masanjor National Parks-Palamu Tiger reserve, Kanjiranga and Gir.

**IV. MAJOR COURSE- MJ 19:
PRACTICALS-VI: (ADVANCED CARTOGRAPHY)**

Marks: Pr (ESE: 3Hrs) =100	Pass Marks: Pr (ESE) = 40
----------------------------	---------------------------

(Credits: Practicals-04) **120 Hours****Instruction to Question Setter for****End Semester Examination (ESE):**

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment = 60 marks

Practical record notebook = 15 marks

Viva-voce = 25 marks

Practicals:**Course Objective:**

The Learning objective of this course are as follows-

1. To familiarise students about methods, tools and techniques of cartography
2. To make student learn and apply principles of map design, thematic mapping techniques and preparation of an Atlas

Learning Outcomes:

After the completion of course, the students will have ability to:

1. Have sound knowledge regarding construction of maps using computers or manual methods.
2. Have proper utilization of maps for the planning and development.
3. Appreciate the preparation of various thematic maps with the application of various techniques.

Course Content:**Part-A (DISCIPLINE BASED MAPPING)**

Unit 1- Mapping of Pollution Intensity, Air Quality index, Mapping and measuring traffic density, traffic flow map

Unit 2- Water potential zones (study and its interpretation in India and Jharkhand), simple numerical problems related to determining permeability in the field and laboratory, Ground water flow, Well hydraulics, Mapping religious contour of India (on an outline map of India), Mapping tribal pattern and contour in India and Jharkhand, mapping and analysis of international boundary of India

Part-B (THEMATIC ATLAS- CASE STUDY BASED MAPPING)

Unit 3- Principles of Map Design; Cartographic Overlays – Point, Line and Areal Data; Diagrammatic Data Presentation – Line, Bar and Circle.

Unit 4- Thematic Mapping Techniques – Properties, Uses and Limitations- Isopleths, Dot, Chorochromatic, Proportional Circles

Unit 5- Thematic Maps – Preparation and Interpretation of atlas

Note: -

- Part- B- Case study based Atlas should be prepared (computer aided or Manual) on a specific theme with at least ten plates for any City/Block/District/state of India.
- Prior approval of Department/ College/ BOS should be taken

SEMESTER VIII

I. MAJOR COURSE- MJ 20: GEOMORPHOLOGY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100	Pass Marks: Th (SIE + ESE) = 40
--	---------------------------------

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students about geomorphic environment, landform development
2. To make student learn and apply geomorphic ideas for water management and environmental degradation

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Learn the geomorphic/ physical environment of the area. It will help in the understanding of geomorphic analysis of landform development
2. Have sound knowledge of geomorphic features which will enable the students in application of geomorphic ideas for water management and environmental degradation
3. It will help the understanding of natural hazard management and various geomorphic applicability

Course Contents-

Unit 1- Defining the field, nature and scope of geomorphology, fundamental concepts, landform evolution, Slope Development and theory

Unit 2- Earth movements- epierogenic, orogenic and symatogenic, climatogenic, plate tectonic and anthropogenic evolution of landforms

Unit 3- Process of landform evolution – concept of gradation, drainage system analysis, morphometric analysis, drainage basin, and channel morphology,

Unit 4- Regional geomorphology of Chotanagpur plateau, Palamu upland, Rajmahal upland, Kolhan Region and denudation chronology

Unit 5- Applied Geomorphology- application of geomorphology to urbanization, agriculture, water resource management, watershed planning and development forestry, regional planning and development, Geomorphic hazard

II. ADVANCED MAJOR COURSE- AMJ 1: URBAN GEOGRAPHY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students about Urbanization, its patterns and theories
2. To make student learn about urban functions, urban sprawl, urban renewal-policies, Master plan

Course Learning Outcome:

After the completion of course, the students will have ability to:

1. Understand the fundamentals and patterns of urbanization process
2. Learn the functional classification of cities and Central Place Theory
3. Know about policies of urban development of India

Course Content:

Unit 1- Nature and scope of Urban Geography-Definition of Urban Settlements (Towns, Cities and Metro etc.), Attributes of urban places during ancient, medieval and modern period,

Unit 2- Classification of urban settlements on the basis of size and function, Urban growth and theories, Central Place theory of Christaller and Losch, Contribution of Indian scholars to the studies of urban settlements.

Unit 3- Urban Population Density and Land Value Curves- Urban Land Use – Vertical and Horizontal Growth of Cities, Concentric, Zonal and Multiple Nuclei Theories of Urban Structure.

Unit 4- Urban Functions- Basic and Non-Basic- Urban Hierarchy- Rank-Size Rule – Central Place Theory – Functional Classification of Towns by C.D. Harris and H.J. Nelson. Urban Issues & Challenges: Water supply, traffic congestion, solid waste, smog, sewage and drainage system; Slum and housing problems

Unit 5- Concept of City, Region and Urban Hinterland – Urban Sprawl- Urban Slums – Urban Crimes and their Trends with reference to India- Concept and Issues of Peri-Urbanization. Elements of Urban Planning – Urban Renewal – Policies of Urban Development in India – Master Plans of Ranchi City.

III. ADVANCED MAJOR COURSE- AMJ 2: SOIL AND HYDROLOGY

Marks: 25 (5 Attd. + 20 SIE: 1Hr) + 75 (ESE: 3Hrs) = 100

Pass Marks: Th (SIE + ESE) = 40

(Credits: Theory-04) **60 Hours**

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students about nature, scope and significance of soil geography
2. To make student learn about soil development, hydrology, hydrological cycle, surface and ground water and its management

Course Learning Outcome:

After the completion of course, the students will have ability to:

1. Study the soil as a basic resource, focusing its distribution, problems and management.
2. Understand the basic components of hydrological cycle and comprehend practices of integrated watershed management.
3. Evaluate the water balancing and river basin and water disputes

Course Contents-

Unit 1- Nature, scope and significance of Soil Geography; its relationship with Pedology, Soil forming factors: parent material, organic, climatic, topographic, Spatio-temporal dimensions, Processes of soil formation and soil development: Physical, Biotic and Chemical. Soil profile.

Unit 2- Soil organism, macro-animals (earthworms, sowbugs, mites, centipedes, rodents and insects), Micro-animals and plants-Nematodes, Protozoa, Rotifers, Fungi, Bacteria, algae and Actinomyces

Unit 3- Physical properties of soils: Morphology, Texture, Structure, Water, Air, Temperature and other properties of soil, Chemical properties of soil and soil reaction, Soil erosion, Degradation and Conservation

Unit 4- Definition and scope of hydrology, importance of water, hydrological cycle, water storages – glaciers, river channels, lakes and reservoirs, soil moisture;

Unit 5- Ground water: characteristics of stream flow, Darcy's law, permeability, infiltration, ground water storage, ground water aquifers in different rock systems, movement and discharge. Water Crisis: a Case study- rural or urban, water management: ground water and surface water

**IV. ADVANCED MAJOR COURSE- AMJ 3:
PRACTICALS-VII: (ADVANCE MAJOR PRACTICAL)**

Marks: Pr (ESE: 3Hrs) =100

Pass Marks: Pr (ESE) = 40

(Credits: Practicals-04) **120 Hours**

Instruction to Question Setter for

End Semester Examination (ESE):

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment	= 60 marks
Practical record notebook	= 15 marks
Viva-voce	= 25 marks

Practicals:

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students about drainage density, drainage texture and stream ordering
2. To make student learn and apply methods of soil testing, planning of satellite and garden town

Course Learning Outcome:

After the completion of course, the students will have ability to:

1. Estimate the soil quality such as soil pH, macro nutrients, identification of soil problems and management.
2. Understand stream ordering techniques, calculation of bifurcation ratio.
3. Evaluate the traffic flow through diagrams, water budget, rainfall dispersion

Course Content:

Unit 1- Stream Ordering (strahler's, Shrew, Horton, Shiedeger's,) Bifurcation ratio, Drainage Density, Drainage Texture, Thalweg, Channel Profiles, Hypsometric Curve, Area-height Diagram, Profiles, block

Unit 2- Study of Soil P_H Value, Nitrogen Content, Phosphorous and Construction of Soil Profiles.

Unit 3- Spherical Diagram, Isoleth, Volumetric or Sten de Geer's method, Traffic Flow Diagram. Regional Pattern of Urbanisation, Planning of Satellite and Garden Town

Unit 4- Water Budget, Rainfall Dispersion Diagram, Ergo graph, Climatograph

Practical Record- exercise on each topic above

COURSES OF STUDY FOR FYUGP IN "GEOGRAPHY" MINOR

MINOR COURSE-1A

(SEM-I)

I. MINOR COURSE- MN 1A:
INTRODUCTORY GEOGRAPHY

Marks: 15 (5 Attd. + 10 SIE: 1Hr) + 60 (ESE: 3Hrs) = 75

Pass Marks: Th (SIE + ESE) = 30

(Credits: Theory-03) 45 Hours

Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students about the Earth system, its origin, interior
2. To make student learn about evolution of landforms, structure and composition of atmosphere,
3. To aware about population distribution, human races, religion and languages

Learning Outcomes:

After the completion of the course, the students will have the ability to:

1. Appreciate the fundamental concepts of geography;
2. apply day to day issues in society and its relation with geography
3. to understand population growth, social diversity

Course Content:**Unit 1-** Origin of the Earth, Interior structure of the earth, Earthquake and volcanoes**Unit 2-** Evolution of landforms- Fluvial, glacial, Aeolian, coastal**Unit 3-** Structure and composition of atmosphere, pressure belt and planetary winds and climatic regions**Unit 4-** Distribution of human races, religion, language**Unit 5-** Distribution, density, and growth of World population**Reference Books;**

1. Bloom, A. L., (2003): Geomorphology: A Systematic Analysis of Late Cenozoic Landforms, Prentice-Hall of India, New Delhi.

10. Shukla, J (2016) Geomorphology, Disha International Publishing House, Delhi

**II. MINOR COURSE- MN 1A PR:
MINOR PRACTICALS-1A PR****Marks: Pr (ESE: 3Hrs) = 25****Pass Marks: Pr (ESE) = 10****(Credits: Practicals-01) 30 Hours****Instruction to Question Setter for****End Semester Examination (ESE):**

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment	= 15 marks
Practical record notebook	= 05 marks
Viva-voce	= 05 marks

Practicals:**Course Objective:**

The Learning objective of this course are as follows-

1. To familiarise students about the concept of scale, RF
2. To make student learn about topographical maps, conventional sign and interpretation

Learning Outcomes:

After the completion of the course, the students will have the ability to:

1. Appreciate the concepts of scale, RF;
2. apply information from topographical maps
3. to understand conventional signs and symbols

Course Content:

Unit 1- Scale- simple linear scale and RF

Unit 2- Study of Topographical Maps- Conventional signs and Interpretation (one each- hilly/plain area)

Practical Record:

A Project File comprising at least one exercise each, on scale and interpretation of topographic sheet

MINOR COURSE-1B

(SEM-III)**III. MINOR COURSE- MN 1B:
GEOGRAPHY OF INDIA AND JHARKHAND****Marks: 15 (5 Attd. + 10 SIE: 1Hr) + 60 (ESE: 3Hrs) = 75****Pass Marks: Th (SIE + ESE) = 30****(Credits: Theory-03) 45 Hours****Course Objective:**

The Learning objective of this course are as follows-

1. To familiarise students about the physical features, climate and vegetation of India and Jharkhand
2. To make student learn about economic, and agricultural features of India and Jharkhand

Learning Outcomes:

After the completion of course, the students will have ability to:

1. Understand the physical profile of the India and Jharkhand
2. Study the resource endowment and its spatial distribution and utilization
3. Synthesize and develop the idea of regional dimensions.

Course Content:

Unit 1- India: Physiographic Divisions, seasons, drainage, Soil and Natural vegetation

Distribution of Population by Race, and Language of India.

Unit 2- Economic features of India: Mineral and Power Resources: Distribution and Utilization of Iron Ore, Coal, Petroleum, Gas;

Unit 3- Agricultural Production of Rice, Wheat; Industrial Corridors and Industrial Regions of India

Unit 4 Regional Account of Jharkhand: Physiography, Drainage, Climate, natural vegetation, Population and tribes (Santhal, Oraon, Munda);

Unit 5- Economic features of Jharkhand: Agriculture, minerals and industry -iron and steel industry, silk; Tourism

Reference Books:

IV. MINOR COURSE- MN 1B PR: MINOR PRACTICALS-1B PR

Marks: Pr (ESE: 3Hrs) = 25	Pass Marks: Pr (ESE) = 10
----------------------------	---------------------------

(Credits: Practicals-01) **30 Hours****Instruction to Question Setter for**End Semester Examination (ESE):

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment	= 15 marks
Practical record notebook	= 05 marks
Viva-voce	= 05 marks

Practicals:**Course Objective:**

The Learning objective of this course are as follows-

1. To familiarise students about methods, tools and techniques of mapping
2. To make student learn and apply thematic mapping techniques and preparation of maps

Learning Outcomes:

After the completion of course, the students will have ability to:

1. Have sound knowledge regarding elements of maps, methods to draw maps.
2. Have proper utilization of maps for the planning and development.
3. Appreciate the preparation of various thematic maps with the application of various techniques.

Course Content:

Unit 1- Thematic Mapping Techniques – Properties, Uses and Limitations; Areal Data -- Choropleth, Dot, Proportional Circles; Point Data – Isopleths.

Unit 2- Diagrammatic Data Presentation – Line, Bar and Circle; Cartographic Overlays – Point, Line and Areal Data. Thematic Maps – Preparation and interpretation

Practical Record: Practical record book- at least 5 plates/maps of any area- district/ state of India (computer aided or manual) based on secondary data should be prepared and interpreted using above techniques

**VI. MINOR COURSE- MN 1C PR:
MINOR PRACTICALS-1C PR****Marks: Pr (ESE: 3Hrs) = 25****Pass Marks: Pr (ESE) = 10****(Credits: Practicals-01) 30 Hours*****Instruction to Question Setter for*****End Semester Examination (ESE):**

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment = 15 marks

Practical record notebook = 05 marks

Viva-voce = 05 marks

Practicals:**Course Objective:**

The Learning objective of this course are as follows-

1. To explain the concept of quantitative information in Geographical study.
2. To explain the importance and sources of data
3. To familiarise students about methods of graphic data representations

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Use statistical methods and techniques in geographical analysis
2. Understand quantitative data, graphical data representation.
3. Understand ways and sources of primary and secondary data

Course Content:

Unit 1- Sources of Data- primary, secondary; Measures of central tendency- Mean, median and mode

Unit 2- Graphic representation- histogram, Ogive, polygons

MINOR COURSE-1D

(SEM-VII)**VII. MINOR COURSE- MN 1D:
CLIMATE CHANGE VULNERABILITY AND ADAPTATION****Marks: 15 (5 Attd. + 10 SIE: 1Hr) + 60 (ESE: 3Hrs) = 75****Pass Marks: Th (SIE + ESE) = 30****(Credits: Theory-03) 45 Hours****Course Objective:**

The Learning objective of this course are as follows-

1. To familiarise students about climate change, global warming
2. To make student learn about vulnerability, adaptation and mitigation to climate change

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Understand the foundational concepts of climate change and its impacts.
2. Assess the human and environmental vulnerability to climate change.
3. Learn the various adaptation and mitigation for reducing the impacts of climate change and national action plan.

Course Content:

Unit 1- Climate Change: Understanding Climate Change; Greenhouse Gases and Global Warming; Global Climatic Assessment- IPCC

Unit 2- Climate Change and Vulnerability: Physical Vulnerability; Economic Vulnerability; Social Vulnerability

Unit 3- Impact of Climate Change: Agriculture and Water; Flora and Fauna; Human Health

Unit 4- Adaptation and Mitigation: Global Initiatives with Particular Reference to South Asia.

Unit 5- National Action Plan on Climate Change; Local Institutions (Urban Local Bodies, Panchayats)

Reference Books:

1. IPCC (2014): Climate Change 2014: Impacts, Adaptation, and Vulnerability. Part A: Global and Sectoral Aspects. Contribution of Working Group II to the Fifth Assessment Report of the Intergovernmental Panel on Climate Change Cambridge University Press, Cambridge, United Kingdom and New York, NY, USA.
 2. OECD (2008): Climate Change Mitigation: "What do we do?" (Organisation and Economic Co-operation and Development).

VIII. MINOR COURSE- MN 1D PR: MINOR PRACTICALS-1D PR

Marks: Pr (ESE: 3Hrs) = 25	Pass Marks: Pr (ESE) = 10
----------------------------	---------------------------

(Credits: Practicals-01) **30 Hours****Instruction to Question Setter for**End Semester Examination (ESE):

There will be one Practical Examination of 3Hrs duration. Evaluation of Practical Examination may be as per the following guidelines:

Experiment	= 15 marks
Practical record notebook	= 05 marks
Viva-voce	= 05 marks

Practicals:Course Objective:

The Learning objective of this course are as follows-

1. To familiarise students to use satellite remote sensing imagery, data interpretation
2. To make students learn application of GIS, GPS technology

Course Learning Outcomes:

After the completion of course, the students will have ability to:

1. Use and apply methods of remote sensing, GIS and GPS
2. Apply technology in solving many real time problems and issues

Course Content:

Unit 1- Remote sensing- Definition, types and its application; platform and sensor, TCC, FCC and satellite (Landsat and IRS) image interpretation, Land Use /Land Cover mapping

Unit 2- GIS: Definition, Components and its Application, Raster and Vector Data Structure, creation of vector data- point, line, polygon; Global Positioning System (GPS) – Principles and Uses, waypoint collection using handheld GPS or mobile phone (geotagging)

Practical Record: A file of practical record should be prepared consisting exercises from each topic above
