2. Organizing Department / Cell: Department of Hindi

3. Date/Duration: 20 February 2024

4. Number of Participants: 51

5. The objective of developing language skills, especially in using technical language in Hindi, Effective Communication: Understanding and Application, Knowledge Accessibility, Standardization of Terminology, Cultural and Regional Relevance, Professional Growth Overall, developing language skills in technical Hindi bridges the gap between technical knowledge and its practical application in regional contexts.

6. Detail Description of the Event:

In the session on language skills organized by the Hindi Department on 19 February 2024 at St. Xavier's College, Mahuadanr, Speaker Ajay Saw paid special attention to the proper use of technical Hindi. He explained how technical Hindi can be used correctly and accurately in language skills and discussed its importance in detail. The aim of this session was to make the students aware of the practical and technical aspects of the language, so that they can use it effectively in their academic and professional life.

Speaker Ajay Saw said that proper and accurate use of technical Hindi not only increases the knowledge of the language, but it also has special importance in the professional and educational field. He also said that it is necessary to use the technical terminology of Hindi language in the right way, so that students can get the benefit of clarity and effectiveness of the language in various fields. Apart from this, he also emphasized the need for development of technical Hindi and its use in the right context.

7. Outcome

The outcomes of using technical language in Hindi can be significant, particularly in enhancing communication, education, and professional development in Hindi-speaking regions. Some key outcomes. Improved Comprehension, Wider Reach of Knowledge, Enhanced Professional Opportunities, Boost in Research and Development, Standardization of Technical Terminology Cultural Integration, Increased Productivity.
